

<p style="text-align: center;"><b>LITERACY</b></p> <p>We will begin our topic with Science fiction writing using our model text 'War of the Worlds'. We will learn that Science fiction is a fiction based on imagined future scientific or technological advances and major social or environmental changes, frequently portraying space or time travel and life on other planets.</p> <p>Using the Talk 4 Writing approach, this will include reading a variety of Sci-fi texts, undertaking comprehension work and identifying success criteria. Using this knowledge, the children will then progress to writing their own version of 'War of the Worlds' using a different setting/ Martian.</p> <p>In SPAG, we will be looking at commas, apostrophes for contraction and possession, brackets, the passive voice and the use of imagery for description. Spellings (that will be sent home weekly) will include patterns and key words.</p>	<p style="text-align: center;"><b>MATHS</b></p> <p>Maths will continue to comprise of CLIC and Core Maths. In CLIC we will focus on reading, ordering and placing numbers with 2 and 3 decimal places on a number line, multiplying whole numbers and decimals by 100 and 1000 and adding /subtracting larger numbers (5/6 digits) using formal written methods. We will also be using skills such as rounding and estimating to mentally add several amounts of numbers.</p> <p>Learn Its will be uploaded to the class page weekly and it is vital that the children learn these and record in their homework books. With Mental Maths, children should aim to develop instant (very fast – no fingers) recall.</p> <p>Core Maths will include multiplying fractions by whole numbers, using short multiplication for 3 &amp; 4-digit numbers by 1 digit and long multiplication for 2 &amp; 3-digit numbers multiplied by teens numbers. We will then move on to rounding, comparing and writing decimal numbers and understanding negative numbers (in the context of temperature). Towards the end of term, we will be looking at translation and reflection of simple shapes and reading and marking coordinates.</p>	<p style="text-align: center;"><b>SCIENCE</b></p> <p>In Science we will be focusing on Earth and Space.</p> <p>We will begin by identifying and describing the planets in the solar system (and making our own version of this!) before focusing on the movement of the earth and the moon.</p>	<p style="text-align: center;"><b>RE</b></p> <p>IN RE, we will be looking at the Easter story and Pentecost.</p> <p>Our prayer this term is the Memorare. We would encourage you to pray this with your child as often as possible. You can find this prayer on our class webpage.</p> 
<p style="text-align: center;"><b>Computing</b></p> <p>Computing will look at developing the children's skills in designing, writing and debugging programs that accomplish specific goals.</p> <p>Linking with our topic of 'Tomorrow's World', the children will be using the program Scratch 2 to create their own 'recycling robot' to clean up litter.</p>	<p><b>YEAR 5 CURRICULUM NEWS</b> <b>SUMMER TERM 1 2018</b></p> <p><b>TOPIC – Tomorrow's World</b></p> <p>In our Topic learning we will be having a serious look at our planet and how human activity will affect its future. We will look at the negative affect of plastic in our oceans (inspired by Blue Planet 2) and how we can help. We will be focusing on recycling and how this can help our planet's future.</p>		<p style="text-align: center;"><b>PSHCE</b></p> <p>PSHCE will provide an opportunity for the children to learn about and discuss moral and cultural issues and respecting differences.</p>
<p style="text-align: center;"><b>PE</b></p> <p>This term's PE will be cricket. In this, we will be focusing on the different throws (rolling, overarm &amp; underarm), fielding and batting the ball with control and accuracy.</p> <p>The children will then put these skills into action by taking part in lesson matches.</p>	<p style="text-align: center;"><b>MUSIC</b></p> <p>Music will be delivered by Mrs. Asbury and lessons will begin with bucket drumming in order to explore tempo, followed by reading rhythmic notation and playing the recorder.</p> 	<p><b>Art and D&amp;T</b></p> <p>In DT we will look at how recycled items can be re-used to make new products. We will then plan, design, create and evaluate our own functional items made from recycled materials.</p>	

**St Anne's Primary School**

Welcome to Year 5

Summer 1 2018

**THE YEAR 5 TEAM**

**Class:** 5

**Teacher:** Miss Roberts

**PPA:** Mrs Houghton (Tuesday Morning)

**Teaching Assistant:** Miss Kujawa and Mrs McAdden-Evans.

**PE DAYS**

PE days are Wednesday and Thursday afternoons.  
Please remember that you need your kit in school every day. Kit includes navy jogging bottoms/shorts, white T-shirt, navy jumper, white trainers and spare socks.

Please note that hair below the shoulders must be tied back and earrings must be removed or covered with tape. Teachers cannot remove earrings and cannot be held responsible for any jewellery that might go missing.

**HOMEWORK**

Homework is sent home Monday and should be handed in on Friday. Please ensure that your child completes his/her work to the highest of standards both in terms of content and presentation. In addition, we would kindly ask you to encourage your child to get in the habit of re-reading his/her work and editing for missing words, spelling and punctuation.

If a child has not completed his/her homework, a letter must be sent to the class teacher giving the reason. The teacher will arrange a time for the work to be completed – probably at break or lunchtime.

Learn Its, spellings and reading must also be completed daily.

Learn Its and spellings will be tested on a Friday.

Children should be able to recall answers to Learn Its in any order and immediately.

It is vital that spellings are practised at home daily – both as single words (in order and out of order) and in sentences (writing the whole sentence). Please do make sure that your child understands the meaning of each word and how to use it in a sentence.

Please do record reading in your child's Reading Record book.

**NOTES**

Information about events will be sent out via newsletter.

Please visit the Year 5 class page on the St Anne's website for weekly updates.
